

Please do not allow new LPFM sations to take priority over current FM translator service. I and my friends listen every day to K-LOVE. We recieve encouragement and upbeat music as well as messages that are positive. This is unusual in the encironment we leave where most people are focusing on the negative. Each day I hear testimonys on how God is changing lives via K-Love and the messages that go out. I live in Carlsbad, Ca., and our church is very supportive of K-Love. The music is a much needed change from what is on other stations. Will we hve nothing to listen to on the radio? Is that the purpose, to lose listeners? It is in the public's best interest to have this alternative. Allow people to hear the message of the Good News on the radio is a great service. Please continue.
